

### **REMARKS**

Reconsideration of the above-referenced application is respectfully requested in view of the above amendments and these remarks. Claims 1-9, 12-19 and 27-29 are currently pending.

In the Office Action, claims 1-9, 12-19 and 27-29 were allowed. Applicants note with appreciation that the subject matter of these claims has been allowed.

Claims 20-26 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Haartsen in view of Suzuki. The Applicants respectfully disagree with the Examiner's rejections set forth in the present office action. However, desiring to expedite the issuance of a patent for the present invention and in view of the Examiner's indications of amendments that would confer allowance, the Applicants have cancelled the claims without prejudice therefore rendering the rejection moot. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record.

As the Applicant has overcome all substantive rejections and objections given by the Examiner and have complied with all requests properly presented by the Examiner, the Applicant contends that this Amendment, with the above discussion, overcomes the Examiner's objections to and rejections of the pending claims. Therefore, the Applicant respectfully solicits allowance of the application. If the Examiner is of the opinion that any issues regarding the status of the claims remain after this response, the Examiner is invited to contact the undersigned representative to expedite resolution of the matter.

Please charge any fees associated herewith, including extension of time fees, to **50-2117**.

Respectfully submitted,  
Harris, John M.
